## Flexible Moulding & Spot Decorations

### PROFILE CATALOG (INTRO)

---

Our unique polyester mouldings offer all advantages of wood but with an added feature of flexibility. Flex Moulding can be manufactured in several grades from very flexible to fully rigid depending on use. Flex Moulding can also be made in Fire Retardant (FR) or Fireproof (FP) material.

This catalog shows complete profiles of all stock mouldings. New mouldings are constantly being added to the line. Any of these mouldings can be cast into radius or free curve to your order.

Flex Moulding can also be supplied as preformed arches to your specifications.

We can reproduce any item you may wish to have copied.

In addition to our profile catalog, we have a full 60 page catalog offering Spot Decorations, Columns, Plaques, Ornamental Carvings, Rosettes, Mirror Frames, Table Legs and our complete line of mouldings. For retail locations we can supply promotional aids and samples.

If you would like our full catalog or have any questions please call us at 1-800-307-3357. Our experienced staff would be happy to assist you with any project or design application.
